

Voice Talent Online, a multinational voice over company, based in the UK. We started out by offering a scholarship in 2018 to help students worldwide with costs related to studying, whether it is books, rent, travel or maybe a new laptop.

Last year's scholarship competition winners were:

- Adriana Ceric, University of Waterloo, Canada – for her article on “Robot vs Human – Voice and Consumer Behaviour”.
- Nice Senolan, Marmara University, Istanbul – for her article on “Talking the Lingo – Why you must go Local for Global Success.”

You can see the winners' interviews and see photos of them with winners' cheques [here](#).

It was so popular that this year there will be an additional competition. Students can now apply for 3 scholarships with a combined prize fund of US\$3,000. [Each scholarship has a cash prize of US\$1,000].

We would love for you to share this new information with your students.
